Intuitive & user-friendly wizard

Automated tax filing & reporting

General Ledger

In-depth, real-time reports

In the United States, there are more than **15,000 TAX CODES.**

On average, these tax codes were changed once per day between 2001 and 2012.

With Asure, distributing, filing, and tax reporting are easy. Our Automated Tax Filing and Reporting takes the pain out of keeping up with taxes—no matter your company's size.

We have you covered on all tax jurisdictions—whether it's federal, state, city, or geo-based taxes, we have them all.

OUR SYSTEM IS SMART

Asure's payroll system provides you with access to over 450 standard reports and two skilled report writers - both analytical and ad hoc - keeping vital information at your fingertips.

33% of businesses are fined for incorrect payroll processing.

Asure's payroll system detects over 250 common errors in the pre-processing stage, saving you both time and resources.

Post tax reports, payroll registers, post-payroll reports, and general ledgers in real-time with just one efficient system.

Asure Software's Payroll and Tax solutions make short work of complex tasks, saving you time and money while ensuring accurate and complete data.
